APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the stream system of which this source is a tributary and is for flood and surplus water only. Water is allowed for the acreage applied for as described in this application notwithstanding the fact that a portion of this land is listed under proof of appropriation No. 00510. The acreage in conflict entitled to a vested right, if any, will be deducted from any certificate issued under this permit. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at all times. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed One & 25/100 cubic feet per second. (1.25)

Actual construction work shall begin on or before June 27, 1916.

Proof of commencement of work shall be filed before July 27, 1916.

Work must be prosecuted with reasonable diligence and be completed on or before December 27, 1916.

Application of water to beneficial use shall be made on or before December 27, 1919.

Proof of the application of water to beneficial use must be filed with the State Engineer on or before January 27, 1920.

WITNESS MY HAND AND SEAL this 27th day of December, 1915.
